3. Adjustment Rod
4. Ear Cushion
5. Click-Stop Turret
6. Boom
7. Microphone
8. Headset Cable
9. Clothing Clip
10. Quick Disconnector
11. RJ9 Modular Connector

Connection

| Figure	Description
	The headset is equipped with a quick disconnector. Users can connect the headset to a special adapter to connect to your IP phone.
	The headset is fitted with a standard modular connector. To use the headset mode, simply insert the modular connector into the headset port of a compatible telephone.
	To adjust the headband, lengthen or shorten the adjustment rod until it fits comfortably. The click-stop feature keeps the headband securely adjusted. Position the headset receiver so that the foam cushions sit comfortably over the center of your ears.
	On models with only one receiver, position the T-bar above your ear.
	Hold the receiver securely against your ear with one hand. With the other hand, use the boom to adjust the microphone to about one finger distance to your lips.
	The clothing clip helps to keep the headset properly positioned and free from the cord's weight. Attach the clothing clip at a comfortable level to liberate your hand.
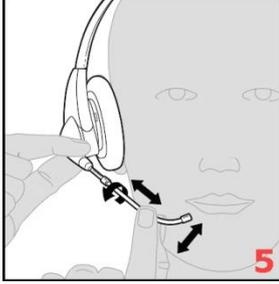

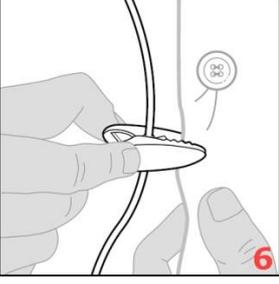

Usage

The Yealink YHS33 is compatible with all of the Yealink IP phones. We will take Yealink SIP-T46G IP phone as an example to make a brief description.
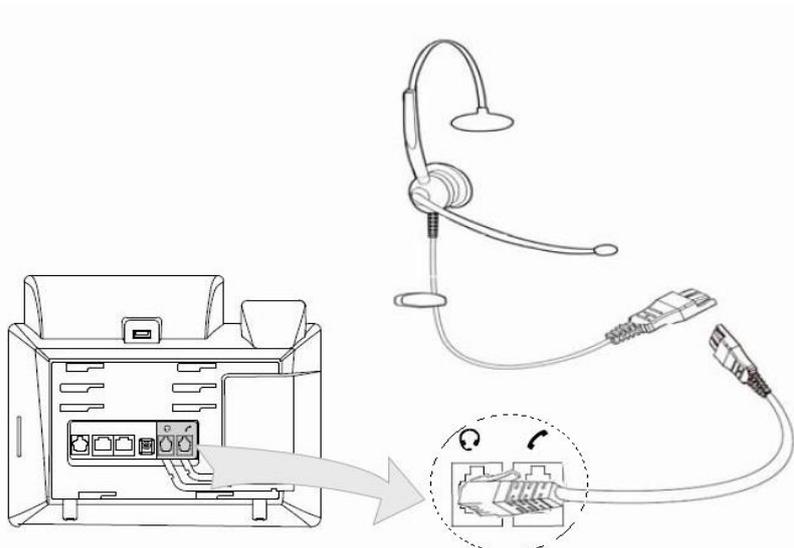

1. When an incoming call arrives to your extension, press the HEADSET key to answer it by the headset mode.
2. During a conversion, press the HEADSET key or pick up the handset, the conversion will switch between the headset mode and the handset mode.

Safety Instructions

Read these safety instructions before use! The following basic safety precautions should always be followed to reduce the risk of fire, electrical shock, and other personal injury.

- Only use Yealink accessories designed for this product.
- Never allow children to play with the product–small parts may be a choking hazard; cords may cause strangulation.
- Do not insert anything into the product because this may cause damage to the internal components or cause injury to you.
- Avoid contact with liquids.
- Discontinue use and contact Yealink if the product overheats, has been damaged or has a damaged cord or plug.
- If you experience a skin irritation after using this product, discontinue use and contact Yealink.
- Exposure to high volume sound levels may damage your hearing. To protect your hearing, Yealink suggests that you:
  1. Set the volume control in a low position before putting the headset on your ears.
  2. Limit the amount of time you use headsets at high volume.
  3. Avoid turning up the volume to block out noisy surroundings.
  4. Turn the volume down if the sound from the headset prevents you from hearing people speaking near you.
